

**METAVERSO
POLO GAME**

LITEPAPER V1

CHUKKER TOKEN

What does CHUKKER mean?

Each one of the periods of seven minutes in which a polo match is divided. The number of chukkers in a match may vary as determined by the tournament commission, with a maximum of eight.

Why 400,000,000 Tokens?

We believe that it is a fair number for the development of the Token ecosystem, using four as the initial number since they are the players that comprise each team.

CHUKKER TOKEN

The \$CHK Token will give you the power to trade freely within the world of Polo, access VIP experiences, buy official products and more.

We as a team believe in open and decentralized governance. This is why CHUKKER token holders will be able to vote and decide on all aspects of the future development paths of the Ecosystem as well as exclusive benefits for belonging to the CHUKKER community.

Join us and help us promote DeFi on **the Binance Smart Chain.**
